### **Ontario Northland Marks a Significant Milestone with its Refurbishment Division**

North Bay, ON – Ontario Northland is set to deliver its 72<sup>nd</sup> completely refurbished car to Go Transit. This marks a significant milestone for Ontario Northland. It is the first car that will be shipped on the extension contract that GO Transit awarded Ontario Northland in May 2008.

The original agreement with GO Transit included Ontario Northland refurbishing 71 cars. Last year, GO Transit extended the contract to include another 50 cars because of the exceptional work Ontario Northland performed.

This extension brings the total of refurbished cars to 121, a project worth \$81 million which extends to July 2011. As a result of this contract, Ontario Northland has created more than 100 full-time positions; an important element in the growth and prosperity for its community and region.

To mark this milestone, on Thursday, September 10, 2009 at 3:30 p.m., Ontario Northland invites media an opportunity to tour and take pictures of this car and to celebrate with our employees this significant milestone. Please RSVP to Tricia Marshall, 705.472.4500 ext. 529.
